

<b>Understanding Impacts of Diabetes Mellitus on End TB Goals</b> <b>Wednesday 26 June 2019</b> <b>13:00 – 17:00</b>		
13.00-13.05	Opening remarks	Dr Sharon Cox
13.05-13.15	TANDEM study: An introduction: Why, How and What	Prof Hazel Dockrell
13.15-13.30	What is T2DM in LMIC – A diabetologists perspective	TBC
13.30-13.45	Does co-morbid DM affect immune responses in TB patients–An RNAseq analysis	Dr Jackie Cliff
13.45 -14.00	Diabetes and melioidosis:alterations in immune response patterns and lymphocyte metabolism	Dr Barbara Kronsteiner-Dobrmysl
14.00-14.15	DM & the TB genome	Prof Reinout Van Crevel
14.15-14.30	Questions and discussion	
14.30-15.00	<b>Tea and Coffee break</b>	
15.00-15.05	Opening remarks	Dr Daniel Grint
15.05-15.25	Student turbo talks (90 secs/each)	
15.25-15.35	Questions and discussion for turbo talks	
15.35-15.45	Population impact of DM on TB in India including mathematical modelling of potential population level interventions	Prof Julia Critchley
15.45-15.55	Diabetes and TB treatment outcomes – meta analysis	Dr Peijue Huangfu
15.55-16.05	Screening for DM in TB patients – evidence from TANDEM	Dr Daniel Grint
16.05 -16.15	Screening for TB in DM patients -evidence from TANDEM	Dr Fiona Pearson
16.15-16.25	Diagnosis and management of DM in Filipino persons with TB	Dr Sharon Cox
16.25-16.35	Quality of life in TB patients with co-morbid DM	Dr Yoko Laurence
16.35-17.00	Discussion and online voting: (1) Bi-directional screening should be recommended in LMIC with high DM & TB burdens? (2) Research priorities	
17.00-18.30	<b>Drinks and light bites reception (Rose Room)</b>
